## Supplies:

To purchase these supplies, [visit my blog post](#) and you can add it all to my online store.

## Measurements:

- Pear Pizzazz cardstock:
  - 9" x 7"; on the 9" side, score at the 1", 4", 5" and 8". On the 7" side, score at the 1" and 6".
  - Scrap piece that fits long skinny label from the Seasonal Labels Dies
  - Scrap piece that fits the smaller of the two rectangular labels from the Seasonal Labels Dies
- Silver Foil 12 x 12 Specialty Paper - 7" x 5"; on the 7" side, score at the 2 1/4", 3 1/2" and 4 3/4" marks.
- Real Red Piece: 1 1/2" x 5"
- DSP pieces:
  - 4 3/4" x 2 3/4"
  - 5 pieces that measure 1" x 3 1/4"
  - Scrap piece that fits larger of the two rectangular labels from the Seasonal Labels Dies
- Basic White scraps for greens, holly, and berries

## Instructions:

1. Taking the pear pizzazz main piece, cut along the score lines on the eight highlighted yellow lines just until the score lines intersect:

2. Place two strips of Tear & Tape on each of the six tabs:

3. Flip the card stock over and fold inward along all the score lines.

4. Remove the Tear & Tape backing and bring the tabs together to form a box with an attached lid.
5. To make the gift card insert, take the 7" x 5" piece of Silver Foil that you've scored on the 7" side at 2 1/4", 3 1/2" and 4 3/4". Fold in half at the 3 1/2" line, and using the smaller of the two rectangular labels from the Seasonal Labels Dies, cut a half a label along the fold so you have a hole in the middle of your foil piece.

6. To make the gift card slot, flip the cardstock over to work on the back side. Draw a pencil line across the short width of the cardstock at the 3 3/4" mark (see blue line). Then make a mark along the pencil line 3/4" in from each side (see red dots).

7. Then using your snips, cut on both sides of the pencil mark to make a little groove for your gift card.

8. Add Tear & Tape to the top and bottom of the back. Flip silver piece back over, fold on the outer score lines the opposite direction to make the box insert. Here's this photo again of this insert after the slots have been made and folds have been burnished:

9. Remove backing from Tear & Tape and adhere to the inside of your box.
10. Take 5 Hershey Nuggets and cover with the DSP strips. Adhere these to the Real Red strip and glue to the inside of your box.

11. Stamp sentiment on small rectangular Pear Pizzaz label, adhere to DSP larger rectangular label and adhere to the inside of the top of your box lid.

12. Decorate the front! I used different color greens with the evergreen stamps and dies, added holly leaves and berries, and Christmas berry sprigs. I stamped my greeting on the pear pizzaz skinny label in Evening Evergreen. I ran the label

again through the emboss machine to add the little slots for my ribbon. Adhere everything to the top!
